

Jesus Emmanuel Alaniz Mancilla

(+52) 3211089015

Manealaniz95@gmail.com

SUMMARY

I am a highly motivated Full-Stack developer who is passionate about creating innovative solutions. I possess extensive knowledge in web development and have a strong set of technical skills. My primary focus lies in building scalable and efficient web applications using both front-end and back-end technologies. I am a self-learner, dedicated individual with a mindset of continuous learning, always ready to take on new challenges and acquire new skills to enhance my abilities as a developer. With a problem-solving approach and a collaborative mindset, I am prepared to make a meaningful contribution to challenging projects and grow professionally in the field of software development.
